MENTAL HEALTH PROGRAMS

Postpartum Mental Health For New Moms

While pregnancy and the birth of a child are momentous experiences in a person's life, the transition also brings a host of challenges for the new mother, with mainly having to adjust to this new life — taking care of the baby and also making sure her own physical and emotional healing is taking place simultaneously. It can also result in something you might not expect — depression. Most new moms experience postpartum "baby blues" after childbirth, which commonly include mood swings, crying spells, anxiety and difficulty sleeping. Baby blues typically begin within the first two to three days after delivery, and may last for up to two weeks. But some new moms experience a more severe, long-lasting form of depression known as postpartum depression. Rarely, an extreme mood disorder called postpartum psychosis also may develop after childbirth.

On 25th April, the awareness of postpartum depression awareness was imparted in Lady Doak College. Sometimes it's simply a complication of giving birth. If you have postpartum depression, prompt treatment can help you manage your symptoms and help you bond with your baby.

Use Heart means to think differently. To make the right decisions. To act with courage. To help others. To engage with this important cause. The heart is the only organ you can hear and feel. Educational Sponsorship

A.Abinaya studying in class VII in St Mary of Leuca Matric School in Madurai is a brilliant student and wants to be a doctor when she grows up. She lost her father at a very young age and her mother is the sole bread winner in the family who is a daily wage labourer. Abinaya's mother approached us as it was very difficult for her to pay her daughters school fees. Voice Trust with the help of our respected Madam, Vidhya Suran provided the Educational Sponsorship for Abinaya.

Education shouldn't be a privilege, it should be a right. An increasing number of children, girls, in particular, fall through the cracks of the education system. These children have dreams which they never reach, either for economic or social reasons. Having even a high school degree drastically increases their earning potential and puts them closer to their goals.

The Education sponsorship program looks for children like Abinaya, who often have great potential. We focus not just on financing their education, but on holistic success and well-being of each student. We believe that every child deserves an equal chance to succeed. Through this program, we are able to change the lives of so many children, but a little help would allow us to reach that many more, changing not just lives but communities.

We are much honoured to be one among the NGO's of the Madurai District organizing Committee that has been constituted under the Chairmanship of District Collector, Madurai along with other Government Officials for conduct of District level Health Assembly.

Free Shirts to Rural Folk Artists

Puttu Thiruvizha (Festival) is the one among the 64 Thiruvilayadals of Lord Sundareswarar. It is celebrated at Puttu Thoppu in Madurai city every year in the Tamil month of "Avani". During the festival season, many koothu companies tour the countryside, often commissioned by villages to perform for several consecutive nights. Despite its enduring rural popularity, because of its low-caste associations, koothu struggles to find place and patronage in urban art circles. On 5th Sep 2022, Voice Trust in association with Ramraj Cotton, Madurai distributed free shirts to around 100 rural folk artists who performed in the Koothu festival in Pudur, Madurai.

Diwali Special –The joy of sharing

While many celebrate Diwali with lights in the sky and family happiness on the day of Diwali, it turns out to be a bitter Diwali for many families whose huts are dark, stomachs are hungry, children are in tears and their clothes are torn. There are many families who cannot celebrate Diwali with poverty while the next person wears beautiful clothes with joy and happiness. We will be a beacon of light for these poor elderly and their families by giving them the necessary help to make Diwali a prosperous Diwali by providing new clothes to the elderly.

Beneficiary Scheme for Leprosy Patients

With the development of science and medical research, it has now been proved that leprosy is just like any other disease and its early detection and treatment can lead to its cure, though there can

not be any relief from the deformity caused. Plastic surgery and physiotherapy has, of course, been helpful to some extent in the partial movement of their strained limbs and joints. Thus it is needless to emphasize that the economic and social rehabilitation of a leprosy affected person is the prime need of the day to give them all opportunities to lead respectable life of a citizen.

On the 14th of Feb 2023, Voice Trust organized a beneficiary event to around 100 leprosy affected persons at Elumalai Primary Health Center, Usilampatti Block, Madurai. Free Dresses, Bedsheets and tumblers were provided to the beneficiaries. The Block Development Officer, Voice Trust Director T Murugesan and nurses graced the function.

Dresses and Sweets to the less fortunate

New shirts and sweets were distributed free to around 250 poor, under privileged, homeless, disabled and transgender people in Madurai in association with Tamil Nadu Cultural Academy Trust on the 17th of Oct 2022.

'Charity Scheme'- Free New Shirts to Needy People

Ahead of Diwali, the festival of lights, Voice Trust in association with Ramraj Cotton distributed 100 brand new shirts to the needy persons on the 11th of Oct 2022 under its 'charity scheme'. Diwali this year is different. It is about being mindful of the people in need. It is about responsible gifting & conscious giving.

On the 26th Oct 2022, this camp was conducted for leprosy patients at Usilambatti Urban Government Primary Health Center. Managing Trustee of Voice Trust Mr.T.
