2022

FROM THE DIRECTOR'S DESK

It was yet another year filled with action and learning for Voice Trust. 2021-22 has been an exceptionally challenging year for everyone. It has been a time of debilitating uncertainty and chaos. But the worst hit by this crisis have been India's underprivileged communities. Our work changed and evolved as the ground situation changed and evolved with the spread of COVID-19. However, our Voice Trust team, exhibiting immense courage, was not only able to establish outreach but also provided relief through psychosocial support and distribution drives during these trying times. Our donors and Government played a pivotal role in supporting us towards undertaking collective action to tackle the situation.

In addition, the trust displayed by our individual donors in the approach and response of Voice Trust is highly appreciated. This report is a more detailed overview of our activities in this period as compared to previous annual reports. For ease of reading, we have divided it into phases to reflect how we faced and dealt with new challenges as they arose. We hope you enjoy reading it.
